STOCKPORT MDC

Stockport MDC Board Meeting

Hollywood Park Investment Prospectus

Context

Enhancing Hollywood Park is a key priority for the MDC, reflecting its importance to local communities living close by as well as its location at the boundary of fast growing Brinksway and the communities of Edgeley.

- We've worked with the Council Parks Team and wider Place colleagues along with local residents, the emerging Friends of Hollywood Park Group and wider local stakeholders to draft an Investment Prospectus for the Park
- The Prospectus is intended to support proactive work to secure investment in the park from a range of external partners.
- In parallel with the development of the Prospectus we have identified organisations to target for further engagement

Points for discussion

As currently drafted does the Prospectus:

- Capture the importance of the Park to our wider regeneration ambitions for the town centre and beyond?
- Strike the right balance between vision and deliverability?
- Strike the right tone for diverse potential investors – from developers to external funders, local organisations and residents?
